

So you're going to be an Assistant Coach?

The chart below outlines the **REQUIRED** courses/requirements for the level of hockey you will be coaching.

<u>LEVEL</u>	<u>REQUIRED COURSE</u>	<u>TYPE</u>
Initiation Program	Respect in Sport Coach 1 - Intro Coach	On-Line In Class (1 day)
House League Novice to Juvenile	Respect in Sport	On-Line
Competitive Novice & Atom B, A, AA	Respect in Sport	On-Line
Competitive Minor Peewee – Major Midget B, A, AA	Respect in Sport HU-ONLINE Coach 1/2 Coach 2 – Coach Level	On-Line On-Line In Class (1 day)
Competitive Major Peewee AAA – Major Midget AAA	Respect in Sport Make Ethical Decisions (Competition-Introduction) Development 1	On-Line On-Line In Class (2 days)
Junior C & B	Respect in Sport HU-ONLINE Coach 1/2 Coach 2 – Coach Level	On-Line On-Line In Class (1 day)
Junior A	Respect in Sport Make Ethical Decisions (Competition-Introduction) Development 1	On-Line On-Line In Class (2 days)

Having attended and completed a different course does not preclude anyone from having to have the REQUIRED course. The courses are set up to teach the coach the required information to coach athletes at the different levels of their growth and development. None of these courses are higher levels of certification; they are simply different areas of knowledge.

Example:

A coach already has Development 1 certification but is going to coach a Minor Peewee A team this season. That Coach MUST take the HU - ONLINE Coach 1/2 and the Coach 2 – Coach Level Course in class.

Notes:

- HEO and Hockey Canada Highly recommended that all assistant coaches at Novice to Midget House League and Novice & Atom B, A, AA take the online HU-Comm. Coach Stream and the in class Coach 2 - Coach Level clinics.
- The Development 1 course has a mandatory Post Task Assignment and a Field Evaluation that must be completed and passed to receive full certification. Coaches are permitted to assume their roles while the process is taking place.
- Development 1 Certification is subject to Certification Maintenance Requirements. Please visit the [Maintenance of Certification](#) page for more details.
